16	651	24	595	640	26	575	692	23	637

Targets that are greyed out are not visible from the corresponding bay.

Do not shoot at any steel target not listed in this table!

LOS (Line Of Sight) Range is the direct line of sight range to the target, the LOS angle is the angle to that target.

Angle Modified Range (AMR) is the true horizontal range to the target, taking the LOS angle into account.
